- SUMMARY -

.NET Backend Engineer with 4+ years of experience developing enterprise web applications using ASP.NET Core, C#, REST APIs, Dapper, EF Core, and SQL Server. Experienced in building scalable backend systems, implementing multi-tenant architectures, optimizing SQL performance, and delivering secure, maintainable software solutions. Skilled in Clean Architecture, API integrations, and Agile development practices.

- TECHNICAL SKILLS -

- Languages: C#, SQL, JavaScript
- Backend: ASP.NET Core, ASP.NET MVC, ASP.NET Web API, .NET Framework
- Database & ORM: SQL Server, Dapper, EF Core, NHibernate
- Frontend: HTML, CSS, JavaScript, jQuery, AJAX, Telerik UI
- Architecture & Tools: REST APIs, Clean Architecture, Git, GitHub, Azure DevOps, Jira

- WORK EXPERIENCE -

Aava Global Solutions| Sanepa, Lalitpur

Backend Developer

October 2025 to Present

- Develop and maintain enterprise HRIS backend systems using ASP.NET Core, Dapper, and SQL Server.
- Work on feature development, production issue resolution, and backend system enhancements.
- Contribute to API design, system scalability, and multi-tenant architecture improvements.
- Participate in Agile development cycles with QA, frontend, and product teams.

Teksewa | Koteswor, Kathmandu

Software Engineer I

February 2024 to October 2025

- Developed and maintained enterprise .NET applications using ASP.NET Core, .NET Framework, EF Core, NHibernate, and SQL Server.
- Worked on backend feature development, bug fixing, and system enhancements for enterprise clients.
- Improved application performance through code optimization and database tuning.
- Collaborated with cross-functional teams in Agile environments to deliver production-ready features

IMS Software | Tripureshwor, Kathmandu

.Net Developer

June 2023 to September 2023

- Developed backend APIs and enterprise application modules using ASP.NET Core API, Dapper, and SQL Server.
- Worked on implementing client requirements, bug fixes, and system improvements.
- Assisted in maintaining and supporting production systems for enterprise clients.

Vesuvio Labs | Babar Mahal, Kathmandu

Junior Software Engineer

February 2022 to April 2023

- Started as a .NET trainee and transitioned into development roles working on enterprise applications.
- Learned and applied ASP.NET MVC, EF Core, and SQL Server in real-world projects.
- Developed and maintained internal applications and contributed to team development tasks.
- Worked in Agile environment using Azure DevOps for task tracking and collaboration.

- PROJECTS -

Aava HRIS/MPH

Technologies: ASP.NET Core Web API, Dapper, SQL Server

- Designed and implemented Google Calendar and Microsoft Outlook integration.
- Resolved critical substitute leave management issue by redesigning backend validation logic.
- Implemented multi-tenant architecture to support multiple organizations in a single system.

Exevision NHDOT and Exevision VTRANS

Technologies: ASP.NET Core, ASP.NET Framework, JavaScript, AJAX, SQL Server

- Maintained and enhanced transportation management systems for enterprise clients.
- Fixed production issues and improved backend stability for critical workflows.
- Optimized database queries and improved system responsiveness.

Nestle SFA

Technologies: ASP.NET Core API, Dapper, SQL Server

- Developed scalable REST APIs for sales force automation workflows.
- Improved API performance through query optimization and efficient data access patterns.

- EDUCATION -

Texas College of Management and IT | Siphel, Kathmandu

Information Technology, Bachelor

2019 to 2023
